

## NOTICE OF REVIEW FOR LAKESHORE'S TRAFFIC MANAGEMENT POLICIES

The Municipality of Lakeshore is looking for feedback on existing and/or new traffic management policies in response to traffic, speed, and safety related concerns raised by residents. Two key policies, as described below, will be completed as part of this project:

**Development of a Speed Limit Policy** - the speed limit policy will look at:

- speed limit policies used by other municipalities to review and monitor the effectiveness of speed limits;
- establish a process to evaluate and recommend speed limit changes on urban roadways based on resident concerns within Lakeshore; and
- provide recommendations and assess the impact related to larger area speed limit reductions in residential (urban) areas of the Municipality.

**Traffic Calming Policy Review** - the traffic calming policy review will:

- review and improve upon Lakeshore's existing traffic calming policy;
- research the latest and best practices used for traffic calming in other municipalities;
- develop guidelines for receiving, evaluating, and implementing traffic calming measures in response to concerns raised by residents; and
- develop a recommended process for making decisions about the types of traffic calming measures to use, their effectiveness, and prioritizing requests for new traffic calming projects.

### Get Involved

Public input is essential to the success of the above policies. Visit the project webpage at [www.lakeshore.ca/traffic-management](http://www.lakeshore.ca/traffic-management) to learn more about the studies and to offer comments. Additional opportunities to provide input including an online questionnaire and a future Public Information Centre, will be announced through the Municipality's webpage for the project.

### Questions? Comments?

Visit the project webpage at [www.lakeshore.ca/traffic-management](http://www.lakeshore.ca/traffic-management) or contact the study project managers:
